Item number: C36000100

Material:

body material: food-grade PP inner material: ceramic glaze

Specifications:

1.Rated power/voltage/frequency: 700W/220V/50Hz

2.Capacity: 1.8L

Electric pot

- Healthy and safe.
- No odor and non-stick pan ensures durability.
- Easy to clean and the power port at the end of the handle to ensure that the pot will not enter water when cleaning.
- It can meet the dining needs of 2-3 people at a time with 1.8L large capacity.
- Double layer insulation and anti-ironing.
- Food-grade PP steamer meets the requirements of steaming and cooking, high temperature resistance(120 degrees), not easy to crack, and long-term use will not change color and deformation

Item number: C56010100

Material: Glass+PP+stainless steel

Specifications:

1.Rated power/voltage/frequency: 300W/220V/50Hz

2.Capacity: 2L

Meat chopper

- The 2L large capacity meets the needs of families of 3-5 people.
- One key can start double gear double speed, fast twisted more hard food and slow twisted more soft food.
- The 300W high-power motor makes the drive knife head rotate at high speed to achieve the effect of twisting 0.5kg of meat in 8 seconds, more efficient.
- Stereo four-leaf S-type screw knife is sharp and durable, can be evenly cut into food
- Easy to clean

Item number: C56000100

Material: Glass+PP+stainless steel

Specifications:

1.Rated power/voltage/frequency: 300W/220V/50Hz

2.Capacity: 2L

- One key can start double gear double speed, fast twisted more hard food and slow twisted more soft food.
- Stereo four-leaf S-type screw knife is sharp and durable, can be evenly cut into food
- The 2L large capacity meets the needs of families of 3-5 people.
- Easy to clean
- Thicker glass bowl ensures wear resistance and visibility.
- Fine steel plum blossom buckle can run for a longer time, Stainless steel bearings are used to be more firm and durable.

Item number: C36010100

Material: PP+non-stick coating

Specifications:

1.Rated power/voltage/frequency: 1500W/220V/50Hz

2.Capacity: 4L

3.color: pale green

Air fryer

- Oil-free air fried is low-fat and healthier, Fried chicken wings, French fries without oil but the taste is still the same.
- 4L large capacity square basket can bake a whole chicken, large capacity can easily meet the needs of a family.
- 360 Three-dimensional cycle heating and 1500W high power make the rapid heating up, to ensure that the food is heating evenly, reducing the loss of umami taste.
- Micro switch design automatic power off can prevent scald, pull out the basket automatically power off, put into the basket automatically work in the original state.
- Fried basket with a non-stick coating, cooking food will not stick to the pan, easy to clean.
- Electroplating double knob control design can operate simply, you can choose time and temperature to make exclusive delicious food.

Item number: C36010150

Material: PP+non-stick coating

Specifications:

1. Rated power/voltage/frequency: 1500W/220V/50Hz

2. Capacity: 4L

3. Color: black

Item number: C36020100

Material: PP+non-stick coating

Specifications:

1.Rated power/voltage/frequency: 1270W/220V/50Hz

2.Capacity: 3.5L

3.Color: beige

Air fryer

- Oil-free air fried is low-fat and healthier,can reduce your fat intake by 80% .Fried chicken wings, French fries without oil but the taste is still the same.
- The full LCD display mode design makes it can start and stop through touching screen, easy to use and intelligent. you can choose time and temperature to make exclusive delicious food.
- 3.5L large capacity square basket can bake a whole chicken, large capacity can easily meet the needs of a family.
- 360 Three-dimensional cycle heating and 1270W high power make the rapid heating up, to ensure that the food is heating evenly, reducing the loss of umami taste.
- Fried basket with a non-stick coating, cooking food will not stick to the pan, easy to clean.

Item number: C36070100

Material: PP+non-stick coating

Specifications:

- 1.Rated voltage/frequency: 220V~/50Hz
- 2.Rated power: 1400W
- 3.Capacity: 4L

Sterilization knives and chopsticks holder

Item number: C56020100

Material: PP

Specifications:

1. Rated power/voltage/frequency: 75W/220V/50Hz

2. Color: rock color

- Main material: food-grade PP material is safe and reliable.
- Disinfection method: physical sterilization method — plasma high temperature disinfection is environmental and health.
- Control mode: light touch control is easy.
- Main functions: fast sterilization, drying and sterilization, cruise mode
- The breathing light is lit to enhance life taste in working mode.

Sterilizing knives and chopsticks holder set

Item number: C56020200

Material: Holder: food-grade PP

Slicing/Chef/Fruit knife: 30Cr13+PP;

Kitchen scissors: 30Cr13+PP

Specifications: 5 pcs

- Main material: food-grade PP material is safe and reliable.
- Disinfection method: physical sterilization method — plasma high temperature disinfection is environmental and health.
- Control mode: light touch control is easy.
- Main functions: fast sterilization, drying and sterilization, cruise mode
- The breathing light is lit to enhance life taste in working mode.
- The knives and scissors material is 30Cr13 that is sharp and wear-resistant, manual blade mouth is sharp by fine grinding, the handle material is PP that ensures not shrink and comfortable grip.

Item number: C56030100

Material: High borosilicate glass cup+PP cup cover+high temperature resistant flame retardant cup seat+die-cast aluminum heating plate+SUS304 blade

Specifications:

1.Rated voltage/frequency: 220V~/50Hz

2.Rated power: Heating power: 900W, stirring power : 600W

3.Capacity: 1.75L

High speed blender

- Function: soybean milk, five grain pulp, tonic paste, stew, thick soup, fruit and vegetable juice, milkshake, cleaning and appointment function.
- Appointment time: less than 12 hours (including 12 hours)
- Cup group: 1.75L high boron glass cup, PP food grade cup cover, high temperature resistant flame retardant cup holder.
- New heating plate paint design will not paste the bottom.
- Easy to clean,touching one button can clean the blender.
- The cup body is made of thickened high borosilicate glass, which is healthy and safe and heated without odor
- With the open cover and power off protection function, it eliminates potential safety risks.
- Waterproof and integrated LCD display panel is easy to operate and clean.

Item number: C36030100

Material: PP+SUS304 internal bile

Specifications:

1.Rated voltage/frequency: 220V~/50Hz

2.Rated power: 700W

3.Capacity: 3L

Smart rice cooker

Zhang Xiao Quan

Since 1628

張
小
泉

- The separation state of rice soup can achieve the purpose of low sugar health, reducing the starch content by about 54%.
- Rice soup sinks but remains sweet, including healthy and delicious.
- Overflow prevention and independent rice soup box is easy to take and clean.
- With 102°C high temperature steaming, rice will be sweet and sticky.
- Visualization of working state can operate easily and without worry.
- Three kinds of rice taste is optional, to meet the taste of different people.
- The function of high temperature cleaning can clean the internal bile food residue.

Electric pressure cooker

Item number: C36040100

Material: PP+non-stick coating

Specifications:

1. Rated voltage/frequency: 220V~/50Hz

2. Rated power: 600W

3. Capacity: 2.5L

- 70kPa smart fast pressure, through-boiling is not boiling.
- Supporting open cover cooking, can be used as a small hot pot.
- The operation panel is controlled by the touch buttons.
- One-click reverse exhaust design is convenient and safe.
- The 1.8mm thick ball kettle is non-stick inner liner.
- 10 Functional, good taste, 24-hour appointments.
- The triangle can control the pressure stably, pressure sensing is stable and accurate.
- The inner pot is stretched out at one time, with the advantages of good strength and long life, and has passed the EMC test.

Multi-functional cooking pot

Item number: C36100100

Material: Cold rolled board spray plastic+electric wood+ cast aluminum baking plate

Specifications:

1.Rated voltage/frequency: 220V~/50Hz

2.Rated power: 1200W

3.Capacity: 4L (Hot pot plate)

- Use surface heating plate.
- The 1200W high-power heating system.
- Plate temperature control is upgraded to pot temperature control.
- Wear-resistant anti-scratch.
- Split pans and non-stick pot make cleaning more convenient.
- The pot body is die-cast in one time, the bottom is innovative arc design
- Multi-file temperature control design can accurately control the temperature.
